# Abscess

Valve ring abscess in infective endocarditis: visualization with wide angle two dimensional echocardiography, 1794

# Acebutolol

Combined acebutolol/nifedipine therapy in patients with chronic coronary artery disease: additional improvement of ischemia-induced left ventricular dysfunction, 1259

Variability of spontaneous and exercise-induced ventricular arrhythmias in the absence and presence of treatment with acebutolol or quinidine, 445

# Action potential

Effect of diltiazem on calcium transport and development of tension in heart muscle, 595

Ionic events responsible for the cardiac resting and action potential, 584

# Adrenal glands

Effects of meclofenamate and captopril on adrenal blood flow: contrasts in conscious rabbits at rest and after hemorrhage, 1544

# Adrenergic system

Histamine and the human heart: the other receptor system, 249

# Ajmaline

Electrocardiographic changes evoked by ajmaline in chronic Chagas' disease without manifest myocarditis, 14

Usefulness of the ajmaline test in patients with latent bundle branch block, 21

# Aldosterone

Captopril in the long-term treatment of essential hypertension: changes in the renin-angiotensin-aldosterone system, 1555

Effect of infused captopril on blood pressure and the renin-angiotensin-aldosterone system in normal dogs subjected to varying sodium balance, 1395

Historical perspectives on the renin-angiotensin-aldosterone system and angiotensin blockade, 1385

Increase in plasma aldosterone during prolonged captopril treatment, 1561

# American College of Cardiology

Abstracts of papers to be presented at the 31st Annual Scientific Session of the American College of Cardiology, 893

Abstracts of the five finalists in the 1982 Young Investigators' Awards Competition, 888

American College of Cardiology membership survey, 890

Author index: abstracts, 1053

Convention features, 879

New members of the College, 1820

President's page: changing functions of the college, 1379

President's page: numbers plus, 1819

Subject index: abstracts, 1059

# Ammonia

Noninvasive assessment of coronary stenoses by myocardial imaging during pharmacologic coronary vasodilation. VI. Detection of coronary artery disease in human beings with intravenous N-13 ammonia and positron computed tomography, 1197

# Amyloidosis

Amyloid cardiomyopathy: characterization by a distinctive voltage/mass relation, 9

# Aneurysms

An unusual case of mitral valve aneurysm: two dimensional echocardiographic and cineangiographic features, 1293

Fate of coronary aneurysms in Kawasaki disease: serial coronary angiography and long-term follow-up study, 1758

Relative efficacy of blind left ventricular aneurysm resection for the treatment of recurrent ventricular tachycardia, 241

# Angina pectoris

See also Coronary artery disease

Clinical characteristics of patients with variant angina complicated by myocardial infarction or death within 1 month, 658

Combined therapy with verapamil and propranolol in chronic stable angina, 125

Comparison of metoprolol and verapamil in the treatment of angina pectoris, 821

Divergent effects of diltiazem in patients with exertional angina, 538

Efficacy of diltiazem in angina on effort: a multicenter trial, 567

Large dose sublingual nitroglycerin in acute myocardial infarction: relief of chest pain and reduction of Q wave evolution, 842

Long-term efficacy of diltiazem in chronic stable angina associated with atherosclerosis: effect on treadmill exercise, 573

Oral isosorbide dinitrate in angina pectoris: comparison of duration of action and dose-response relation during acute and sustained therapy, 411

Randomized double-blind comparison of nifedipine and isosorbide dinitrate in patients with coronary arterial spasm, 431

Regional coronary hemodynamic responses to cold stimulation in patients without variant angina, 665

Safety and efficacy of diltiazem hydrochloride for the treatment of stable angina pectoris: report of a cooperative clinical trial, 560

Short- and long-term responses to diltiazem in patients with variant angina, 554

Spectrum of unstable angina: prognostic role of serum creatine kinase determination, 1849

The hyperventilation test as a method for developing successful therapy in Prinzmetal's angina, 834

Verapamil in stable effort angina: effects on left ventricular function evaluated with exercise radionuclide ventriculography, 425

# Angiocardiology

Anatomically flexible, computer-assisted reporting system for coronary angiography, 1208

An unusual case of mitral valve aneurysm: two dimensional echocardiographic and

cineangiographic features, 1293

Can exercise electrocardiography and thallium-201 myocardial imaging exclude the diagnosis of coronary artery disease? Bayesian analysis of the clinical limits of exclusion and indications for coronary angiography, 1127

Prevalence of late potentials after the QRS complex in patients with and without ventricular tachycardia: correlation with angiographic findings, 1932

Two dimensional echocardiographic detection and measurement of the right pulmonary artery in pulmonary atresia-ventricular septal defect: angiographic and surgical correlation, 1235

Univentricular heart: an angiographic study, 787

# Angiocardiology, intravenous

Twelfth Bethesda Conference. Noninvasive technology in the assessment of ventricular function, 1309

# Angiocardiology, radionuclide

Hemodynamic correlates of right ventricular ejection fraction measured with gated radionuclide angiography, 71

Quantitation of left ventricular regurgitant fraction by first pass radionuclide angiocardiology, 85

Radionuclide angiocardiology: assessment of pulmonary vascular reactivity in patients with left to right shunt and pulmonary hypertension, 356

Radionuclide angiocardiology in evaluation of patients after repair of transposition of the great arteries, 761

Radionuclide evaluation of right and left ventricular function in children: validation of methodology, 1241

Vasodilator therapy in refractory congestive heart failure: a comparative analysis of hemodynamic and noninvasive studies, 439

# Angioplasty, percutaneous transluminal coronary

A new catheter system for coronary angioplasty, 1216

Coronary hemodynamics during percutaneous transluminal coronary angioplasty, 1615

Improvement of left ventricular function after percutaneous transluminal coronary angioplasty, 651

Percutaneous transluminal coronary angioplasty: report from the registry of the National Heart, Lung, and Blood Institute, 2011

# Angiotensin

See also Symposium on angiotensin-converting enzyme inhibition

Activity of the sympathetic nervous system and renin-angiotensin system assessed by plasma hormone levels and their relation to hemodynamic abnormalities in congestive heart failure, 1659

The contributions of sympathetic tone and the renin-angiotensin system to severe chronic congestive heart failure: response to specific inhibitors (prazosin and captopril), 1667

# Ankylosing spondylitis

Aortitis in ankylosing spondylitis: early detection of aortic root abnormalities with two dimensional echocardiography, 680

# Antiarrhythmic therapy

Long-term intravenous infusion of antiarrhythmic drugs using a totally implanted drug delivery system, 1954

# Aortic arch

Distal aortopulmonary septal defect, aortic origin of the right pulmonary artery, intact ventricular septum, patent ductus arteriosus and hypoplasia of the aortic isthmus: a newly recognized syndrome, 108

# Aortic coarctation

## CLINICAL STUDIES

- 1 Effects of Nonsurgical Coronary Reperfusion on the Left Ventricle in Human Subjects Compared With Conventional Treatment. Study of 18 Patients With Acute Myocardial Infarction Treated With Intracoronary Infusion of Streptokinase. K. Peter Rentrop, Heinrich Blanke and Karl R. Karsch
- 9 Amyloid Cardiomyopathy: Characterization by a Distinctive Voltage/Mass Relation. John D. Carroll, William H. Gaasch and Keith P. W. J. McAdam
- 14 Electrocardiographic Changes Evoked by Ajmaline in Chronic Chagas' Disease Without Manifest Myocarditis. Pablo A. Chiale, Julio Przybylski, Rubén A. Laiño, M. Susana Halpern, Rubén A. Sánchez, Alfredo Gabrieli, Marcelo V. Elizari and Mauricio B. Rosenbaum
- 21 Usefulness of the Ajmaline Test in Patients With Latent Bundle Branch Block. Pablo A. Chiale, Julio Przybylski, Rubén A. Laiño, M. Susana Halpern, Gerardo J. Nau, Rubén A. Sánchez, Julio O. Lazzari, Marcelo V. Elizari and Mauricio B. Rosenbaum
- 27 Catenoidal Shape of the Interventricular Septum in Idiopathic Hypertrophic Subaortic Stenosis: Two Dimensional Echocardiographic Confirmation. Kenneth J. Silverman, Grover M. Hutchins, James L. Weiss and G. William Moore
- 33 Left Atrial Volume Overload in Mitral Regurgitation: A Two Dimensional Echocardiographic Study. Leonard G. Gehl, Gary S. Mintz, Morris N. Kotler and Bernard L. Segal
- 39 Comparison of Noninvasive Techniques in Evaluation of the Nontissue Cardiac Valve Prosthesis. Gary S. Mintz, Eric B. Carlson and Morris N. Kotler

## EXPERIMENTAL STUDIES

- 45 Suppression of Ventricular Fibrillation and Positive Inotropic Action of Bethanidine Sulfate, a Chemical Analog of Bretylium Tosylate That is Well Absorbed Orally. Marvin B. Bacaner, Michael F. Hoey and Mark G. Macres
- 56 Patterns of Interecopic Activation Recorded During Pleomorphic Ventricular Tachycardia After Myocardial Infarction in the Dog. Glenn Kabbell, Benjamin J. Scherlag, Ronald R. Hope and Ralph Lazzara
- 63 Determination of Left Ventricular Mass by Computed Tomography. Claes G. Skjöldebrand, Martin J. Lipton, Constantine Mavroudis and Thomas T. Hayashi

## METHODS

- 71 Hemodynamic Correlates of Right Ventricular Ejection Fraction Measured With Gated Radionuclide Angiography. Kenneth S. Korr, Elan J. Gandsman, Mark L. Winkler, Richard S. Shulman and Edward W. Bough
- 78 Nongeometric Determination of Right Ventricular Volumes From Equilibrium Blood Pool Scans. Gregory J. Dehmer, Brian G. Firth, L. David Hillis, Pascal Nicod, James T. Willerson and Samuel E. Lewis
- 85 Quantitation of Left Ventricular Regurgitant Fraction by First Pass Radionuclide Angiocardiography. Warren R. Janowitz and Arie Fester

## PEDIATRIC CARDIOLOGY

- 93 Left and Right Ventricular Morphology in Complex Congenital Heart Disease Defined by Two Dimensional Echocardiography. Rodney Foale, Lino Stefanini, Anthony Rickards and Jane Somerville
- 100 Two Dimensional Doppler Echocardiographic/M Mode Echocardiographic and Phonocardiographic Method for Study of Extracardiac Heterograft Valved Conduits in the Right Ventricular Outflow Tract Position. Jesus M. Canale, David J. Sahn, Jack G. Copeland, Stanley J. Goldberg, Lilliam M. Valdes-Cruz, Neal Salomon and Hugh D. Allen
- 108 Distal Aortopulmonary Septal Defect, Aortic Origin of the Right Pulmonary Artery, Intact Ventricular Septum, Patent Ductus Arteriosus and Hypoplasia of the Aortic Isthmus: A Newly Recognized Syndrome. Teresa E. Berry, Saroja Bharati, Alexander J. Muster, Farouk S. Idriss, Barbara Santucci, Maurice Lev and Milton H. Paul

## REPORTS ON THERAPY

- 117 Comparison of the Electrophysiologic Effects of Intravenous and Oral Verapamil in Patients With Paroxysmal Supraventricular Tachycardia. George J. Klein, Sajad Gulamhusein, Eric N. Prystowsky, S. George Carruthers, Allan P. Donner and Patrick T. Ko
- 125 Combined Therapy With Verapamil and Propranolol in Chronic Stable Angina. Bala Subramanian, Michael J. Bowles, Anthony B. Davies and Edward B. Rafferty
- 133 Improvement in Supine Bicycle Exercise Performance in Refractory Congestive Heart Failure After Isosorbide Dinitrate: Radionuclide and Hemodynamic Evaluation of Acute Effects. Harvey S. Hecht, Soteria E. Karahalios, Stephen J. Schnugg, John A. Ormiston, James M. Hopkins, Judith G. Rose and Bramah N. Singh

## REVIEW

- 141 Tricuspid Atresia in Adults. William Patterson, William A. Baxley, Robert B. Karp, Benigno Soto and Lionel L. Barger

## STUDIES IN HYPERTENSION

- 153 Clonidine, a Centrally Acting Sympathetic Inhibitor, as Monotherapy for Mild to Moderate Hypertension. Chalempol Thananopavarn, Michael S. Golub, Peter Eggena, Jack D. Barrett and Mohinder P. Sambhi

## DIAGNOSTIC SHELF

- 159 Rate of Rise of the Carotid Pulse. An Investigation of Observer Error in a Common Clinical Measurement. David H. Spodick, Tetsuro Sugiura, Yoshinori Doi, Delores Paladino and Bruce G. Haffty

## SEMINAR ON SURGICAL THERAPY FOR VENTRICULAR ARRHYTHMIAS. Albert L. Waldo, MD, FACC, Guest Editor

- 163 Introduction and Perspective. Albert L. Waldo
- 166 Electrophysiologic Mapping to Determine the Mechanism of Experimental Ventricular Tachycardia Initiated by Premature Impulses. Experimental Approach and Initial Results Demonstrating Reentrant Excitation. Andrew L. Wit, Maurits A. Allesie, Felix I. M. Bonke, Wim Lammers, Joep Smeets and John J. Fenoglio, Jr.
- 186 Medical Treatment of Ventricular Tachycardia: Considerations in the Selection of Patients for Surgical Treatment. Hein J. J. Wellens, Frits W. H. M. Bär, Eddy J. D. M. Vanagt and Pedro Brugada
- 194 Role of Implantable Pacemakers in Control of Recurrent Ventricular Tachycardia. John D. Fisher, Soo G. Kim, Seymour Furman and Jeffrey A. Matos
- 207 Role of Catheter Mapping in the Preoperative Evaluation of Ventricular Tachycardia. Mark E. Josephson, Leonard N. Horowitz, Scott R. Spielman, Harvey L. Waxman and Allan M. Greenspan
- 221 Techniques of Intraoperative Electrophysiologic Mapping. John J. Gallagher, Jack H. Kasell, James L. Cox, William M. Smith, Raymond E. Ideker and Warren M. Smith
- 241 Relative Efficacy of Blind Left Ventricular Aneurysm Resection for the Treatment of Recurrent Ventricular Tachycardia. Jay W. Mason, Edward B. Stinson, Roger A. Winkle, Philip E. Oyer, Jerry C. Griffin and David L. Ross

## EDITORIALS

- 249 Histamine and the Human Heart: The Other Receptor System. Michael R. Bristow, Robert Ginsberg and Donald C. Harrison
- 252 On the Limitation of Therapeutic Intervention Trials in Ischemic Heart Disease: A Clinician's Viewpoint. Arthur Selzer

## SPECIAL DEPARTMENTS

- 257 Letters to the Editor

## CLINICAL STUDIES

- 259 **Reflex Mechanisms Responsible for Early Spontaneous Termination of Paroxysmal Supraventricular Tachycardia.** Menashe B. Waxman, Arjun D. Sharma, Douglas A. Cameron, Felix Huerta and Robert W. Wald
- 273 **Differential Effects of Functional Autonomic Blockade on the Variables of Sinus Nodal Automaticity in Sick Sinus Syndrome.** Pritpal S. Kang, Joseph Anthony C. Gomes and Nabil El-Sherif
- 283 **Analysis of Anterograde and Retrograde Fast Pathway Properties in Patients With Dual Atrioventricular Nodal Pathways. Observations Regarding the Pathophysiology of the Lown-Ganong-Levine Syndrome.** Robert A. Bauernfeind, Steven Swiryn, Boris Strasberg, Edwin Palileo, Christopher Wyndham, C. Elise Duffy and Kenneth M. Rosen
- 291 **Coronary Collateral Vessels: Their Significance for Left Ventricular Histologic Structure.** Franz Schwarz, Jutta Schaper, Viola Becker, Wolfgang Kübler and Willem Flameng
- 296 **Exercise Responses Before and After Physical Conditioning in Patients With Severely Depressed Left Ventricular Function.** Eric H. Conn, R. Sanders Williams and Andrew G. Wallace
- 301 **Analysis of Pacemaker Malfunction and Complications of Temporary Pacing in the Coronary Care Unit.** Joseph L. Austin, Lehman K. Preis, Richard S. Crampton, George A. Beller and Randolph P. Martin

## EXPERIMENTAL STUDIES

- 307 **Characteristics of Conduction of Premature Impulses During Acute Myocardial Ischemia and Reperfusion: A Comparison Between Anterograde and Retrograde Activation.** Hiromu Hamamoto, Thomas Peter, Toshifumi Fujimoto and William J. Mandel with the technical assistance of Avile McCullen
- 317 **Role of Early Cycle Ventricular Extrasystoles in Initiation of Ventricular Tachycardia and Fibrillation: Evaluation of the R on T Phenomenon During Acute Ischemia in a Canine Model.** Masahito Naito, Eric L. Michelson, Elieser Kaplinsky, Leonard S. Dreifus, Daniel David and Thomas M. Blenke
- 323 **Electrophysiologic Consequences of Experimental Acute Ischemia Superimposed on Healed Myocardial Infarction in Cats.** Robert J. Myerburg, Kristina Epstein, Marion S. Geide, Sam S. Wong, Agustin Castellanos, Henry Gelband and Arthur L. Bassett
- 331 **Failure of Nifedipine Therapy to Reduce Myocardial Infarct Size in the Baboon.** Grayson G. Geary, Gregory T. Smith, Glenn T. Suehiro and J. Judson McNamara

## METHODS

- 339 **Pulsed Doppler Echocardiography in the Diagnosis and Estimation of Severity of Aortic Insufficiency.** Mariana Ciobanu, Abdul S. Abbasi, Marty Allen, Alan Hermer and Richard Spellberg
- 344 **Noninvasive His Bundle Electrogram: Value of Three Vector Lead Recordings.** Rahul Mehra, George J. Keane, Robert Zeiler, David Zephiran, Paul Fried, J. A. Gomes and Nabil El-Sherif

## PEDIATRIC CARDIOLOGY

- 349 **A New Technique for Noninvasive Evaluation of Femoral Arterial and Venous Anatomy Before and After Percutaneous Cardiac Catheterization in Children and Infants.** David J. Sahn, Stanley J. Goldberg, Hugh D. Allen, Lillian M. Valdes-Cruz, Jesus M. Canale, Lothar Lange and Mark J. Friedman
- 356 **Radionuclide Angiocardigraphic Assessment of Pulmonary Vascular Reactivity in Patients With Left to Right Shunt and Pulmonary Hypertension.** Alan M. Fujii, Marlene Rabinovitch, John F. Keane, Donald C. Fyler and Salvador Treves
- 362 **Growth and Development of Ventricular Walls in Complete Transposition of the Great Arteries With Intact Septum (Simple Transposition).** Audrey Smith, James L. Wilkinson, Robert Arnold, David F. Dickinson and Robert H. Anderson

## REVIEWS

- 369 **Advantages of the Caudocranial Left Anterior Oblique Left**

**Ventriculogram in Adult Heart Disease.** Larry P. Elliott, Curtis E. Green, William J. Rogers, William P. Hood, John A. Mantle and Silvio E. Papapietro

## SEMINAR ON SURGICAL THERAPY FOR VENTRICULAR ARRHYTHMIAS—PART III.

Albert L. Waldo, MD, FACC, Guest Editor.

- 381 **Rationale for a Direct Surgical Approach to Control Ventricular Arrhythmias. Relation of Specific Intraoperative Techniques to Mechanism and Location of Arrhythmic Circuit.** John P. Boineau and James L. Cox
- 397 **Surgical Management of Ventricular Tachycardia Unrelated to Myocardial Ischemia or Infarction.** Guy Fontaine, Gérard Guiraudon, Robert Frank, Frédéric Fillette, Christian Cabrol and Yves Grosgeat

## REPORTS ON THERAPY

- 411 **Oral Isosorbide Dinitrate in Angina Pectoris: Comparison of Duration of Action and Dose-Response Relation During Acute and Sustained Therapy.** Udho Thadani, Ho-Leung Fung, Andrew C. Darke and John O. Parker with the statistical assistance of Marjery J. Cruise
- 420 **Effects of Sulfapyrazole on Early Graft Closure After Myocardial Revascularization.** Hans R. Baur, Robert A. VanTassel, Claus A. Pierach and Frederick L. Gobel
- 425 **Verapamil in Stable Effort Angina: Effects on Left Ventricular Function Evaluated With Exercise Radionuclide Ventriculography.** Arthur T. H. Tan, Norman Sadick, David T. Kelly, Phillip J. Harris, S. Benedict Freedman and George Bautovich
- 431 **Randomized Double-Blind Comparison of Nifedipine and Isosorbide Dinitrate in Patients With Coronary Arterial Spasm.** James A. Hill, Robert L. Feldman, Carl J. Pepine and C. Richard Conti
- 439 **Vasodilator Therapy in Refractory Congestive Heart Failure: A Comparative Analysis of Hemodynamic and Noninvasive Studies.** Aminul Haq, Harry Rakowski, Ronald Baigrie, Peter McLaughlin, Robert Burns, Hariwan Tihal, David Hilton and David Feiglin
- 445 **Variability of Spontaneous and Exercise-Induced Ventricular Arrhythmias in the Absence and Presence of Treatment With Acebutolol or Quinidine.** William Shapiro, Janet Park and Gary G. Koch
- 455 **Mexiletine, A New Antiarrhythmic Agent, for Treatment of Premature Ventricular Complexes.** Jawahar Mehta and C. Richard Conti

## DIAGNOSTIC SHELF

- 461 **M Mode and Cross-Sectional Echocardiographic Recognition of Fibrosis and Calcification of the Mitral Valve Chordae and Left Ventricular Papillary Muscles.** Patricia C. Come and Marilyn F. Riley
- 467 **Echocardiographic Study of Abnormal Position and Motion of the Posterobasal Wall of the Left Ventricle in Cases of Giant Left Atrium.** Shintaro Beppu, Kohel Kawazoe, Yasuharu Nimura, Seiki Nagata, Yung-Dae Park, Hiroshi Sakakibara and Tsuyoshi Fujita

## CASE REPORTS

- 473 **Severe Aortic Regurgitation From Systemic Hypertension (Without Aortic Dissection) Requiring Aortic Valve Replacement. Analysis of Four Patients.** Bruce F. Waller, Jerel M. Zolnick, Jeffrey H. Rosen, Nevin M. Katz, Mario N. Gomes, Ross D. Fletcher, Robert B. Wallace and William C. Roberts
- 478 **Ischemic Heart Disease in Systemic Lupus Erythematosus in the Young Patient: Report of Six Cases.** Charles J. Homcy, Richard R. Libershton, John T. Fallon, Stephen Gross and Lawrence M. Miller

## SPECIAL DEPARTMENTS

- 485 **Education Update**
- 495 **Letters to the Editor**

SYMPOSIUM ON CARDIOVASCULAR DISEASE  
AND CALCIUM ANTAGONISTS

Arnold Schwartz, PhD, FACC, Guest Editor

- 497 **Introduction.** Arnold Schwartz
- 499 **Differential Cardiovascular Effects of Calcium Channel Blocking Agents: Potential Mechanisms.** Ronald W. Millard, David A. Lathrop, Gunter Grupp, Muhammad Ashraf, Ingrid L. Grupp and Arnold Schwartz
- 507 **Selectivity of Calcium Antagonistic Action in Vascular Smooth Muscle.** Cornelius van Breemen, Allen Mangel, Mohammad Fahim and Kaushik Meisner
- 511 **Differential Effects of Calcium Channel Blocking Agents on Oxygen Consumption Rate in Vascular Smooth Muscle.** Stephen F. Flaim, James M. Irwin, Paul H. Ratz and Steven C. Swigart
- 519 **Selective Action of Diltiazem on Cerebral Vascular Smooth Muscle in the Rabbit: Antagonism of Extrinsic but not Intrinsic Maintained Tone.** John A. Bevan
- 525 **Pharmacokinetics of Diltiazem in Selected Animal Species and Human Beings.** Robert W. Piepho, Duane C. Bloedow, Joseph P. Lacz, Dennis J. Runser, Daniel C. Dimmit and Ronald K. Browne
- 529 **The Pharmacokinetics of Diltiazem in Healthy American Men.** Robert F. Zelis and Evlin L. Kinney
- 533 **Diltiazem for Long-Term Therapy of Coronary Arterial Spasm.** John S. Schroeder, Irene H. Lamb, Robert Ginsburg, Michael R. Bristow and Joseph Hung
- 538 **Divergent Effects of Diltiazem in Patients With Exertional Angina.** Kenneth F. Hossack, Robert A. Bruce, Jeffrey B. Ritterman, Fusako Kusumi and Shirley Trimble
- 547 **The Effects of Calcium Channel Blocking Agents on Cardiovascular Function.** Reginald Low, Patricia Takeda, Dean T. Mason and Anthony N. DeMaria
- 554 **Short- and Long-Term Responses to Diltiazem in Patients With Variant Angina.** Robert L. Feldman, Carl J. Pepine, James Whittle and C. Richard Conti
- 560 **Safety and Efficacy of Diltiazem Hydrochloride for the Treatment of Stable Angina Pectoris: Report of a Cooperative Clinical Trial.** William E. Strauss, Kevin M. McIntyre, Alfred F. Parisi and William Shapiro
- 567 **Efficacy of Diltiazem in Angina on Effort: A Multicenter Trial.** Kenneth F. Hossack, Peter E. Pool, Peter Steele, Michael H. Crawford, Anthony N. DeMaria, Lawrence S. Cohen and Thomas A. Ports with the biostatistical assistance of Lori Skalland
- 573 **Long-Term Efficacy of Diltiazem in Chronic Stable Angina Associated With Atherosclerosis: Effect on Treadmill Exercise.** Peter E. Pool and Shirley C. Seagren
- 578 **Hemodynamic and Gas Exchange Effects of Intravenous Diltiazem in Patients With Pulmonary Hypertension.** Barry J. Crevey, David R. Dantzker, James S. Bower, Kishor D. Popat and Steven D. Walker
- 584 **Ionic Events Responsible for the Cardiac Resting and Action Potential.** Martin Morad and Leslie Tung
- 595 **Effect of Diltiazem on Calcium Transport and Development of Tension in Heart Muscle.** Martin Morad, Leslie Tung and Allan M. Greenspan
- 602 **Electrophysiologic Effects of Diltiazem in Canine Myocardium, With Special Reference to Conduction Delay During Ischemia.** Thomas Peter, Toshifumi Fujimoto, Hiromu Hamamoto, Avile McCullen and William J. Mandel
- 606 **Do Calcium-Dependent Ionic Currents Mediate Ischemic Ventricular Fibrillation?** William T. Clusin, Michael R. Bristow, Hrayr S. Karagueuzian, Bertram G. Katzung and John S. Schroeder
- 613 **Comparative Electrophysiologic and Coronary Hemodynamic Effects of Diltiazem, Nisoldipine and Verapamil on Myocardial Tissue.** David A. Lathrop, J. Roberto Valle-Aguilera, Ronald W. Millard, Winston E. Gaum, David W. Hannon, Paul D. Francis, Haruaki Nakaya and Arnold Schwartz
- 621 **Electrophysiologic Effects of Diltiazem Hydrochloride on Supraventricular Tachycardia.** John J. Rozanski, Liaqat Zaman and Agustin Castellanos
- 629 **Comparative Clinical Electrophysiologic Effects of Diltiazem, Verapamil and Nifedipine: A Review.** L. Brent Mitchell, John S. Schroeder and Jay W. Mason

## CLINICAL STUDIES

- 637 **Value of Radionuclide Ventriculography in the Immediate Characterization of Patients With Acute Myocardial Infarction.** C. Fagg Sanford, James Corbett, Pascal Nicod, George L. Curry, Samuel E. Lewis, Gregory J. Dehmer, Allan Anderson, Barbara Moses and James T. Willerson
- 645 **Severe Left Main Coronary Arterial Stenosis With Right Coronary Arterial Occlusion: Results of Bypass Graft Surgery.** Edward A. Rittenhouse, Lester R. Sauvage, Peter B. Mansfield, James C. Smith, Dale G. Hall, Christopher C. Davis and Mary A. O'Brien
- 651 **Improvement of Left Ventricular Function After Percutaneous Transluminal Coronary Angioplasty.** Ulrich Sigwart, Milan Grbic, Axel Essinger, Angelika Bischof-Delaloye, Hossein Sadeghi and Jean-Louis Rivier
- 658 **Clinical Characteristics of Patients With Variant Angina Complicated by Myocardial Infarction or Death Within 1 Month.** David D. Waters, Jadwiga Szlachet, Douglas Miller and Pierre Theroux
- 665 **Regional Coronary Hemodynamic Responses to Cold Stimulation in Patients Without Variant Angina.** Robert L. Feldman, James L. Whittle, J. Danie Marx, Carl J. Pepine and C. Richard Conti
- 674 **Inability of Exercise-Induced R Wave Changes to Predict Coronary Artery Disease.** Kim Fox, Diane England, Anne Jonathan and Andrew Selwyn
- 680 **Aortitis in Ankylosing Spondylitis: Early Detection of Aortic Root Abnormalities With Two Dimensional Echocardiography.** Charles R. Tucker, Robert E. Fowles, Andrei Calin and Richard L. Popp
- 687 **Hemodynamic Effects of Acute Atrioventricular Sequential Pacing in Patients With Left Ventricular Dysfunction.** Michael J. Reiter and Michael C. Hindman
- 693 **Prognostic Significance of Repetitive Ventricular Response During Programmed Ventricular Stimulation.** Günter Breithardt, Ludger Seipel, Thomas Meyer and Rolf R. Abendroth

## EXPERIMENTAL STUDIES

- 699 **Mechanisms and Time Course for the Disappearance of Thallium-201 Defects at Rest in Dogs: Relation of Time to Peak Activity to Myocardial Blood Flow.** Robert D. Okada, Jeffrey A. Leppo, H. William Strauss, Charles A. Boucher and Gerald M. Pohost
- 707 **Posterior Fascicular Block Versus Posteroinferior Myocardial Infarction in Left Posterior Excitation Disturbances.** Thomas B. Watt, Jr., Nancy C. Flowers and Jerry D. Conrad
- 716 **Accuracy of M Mode Echocardiographic Measurements of the Left Ventricle.** Mark J. Friedman, William R. Roeske, David J. Sahn, Douglas Larson and Stanley J. Goldberg
- 724 **Absence of Slow Channel-Dependent Conduction Within the His-Purkinje (Bundle Branch) Reentrant Circuit: A Clinical and Experimental Study of the Effects of Verapamil.** C. Pratap Reddy, Chien S. Kuo, Hirotsugu Atarashi, Borys Surawicz and Russell G. McAllister, Jr.

## METHODS

- 733 **Thallium-201 Myocardial Scintigraphy: Improved Sensitivity, Specificity and Predictive Accuracy by Application of a Statistical Image Analysis Algorithm.** James V. Faris, Robert W. Burt, Martin C. Graham and Suzanne B. Knoebel

- 743 **Simultaneous Measurement of Coronary Venous Blood Flow and Oxygen Saturation During Transient Alterations in Myocardial Oxygen Supply and Demand.** Donald S. Baim, Martin T. Rothman and Donald C. Harrison
- 753 **Implantable Automatic Scanning Pacemaker for Termination of Supraventricular Tachycardia.** Roworth A. J. Spurrell, Anthony W. Nathan, Rodney S. Bexton, Kevin J. Hellestrand, Tibor Nappholz and A. John Camm

## PEDIATRIC CARDIOLOGY

- 761 **Radionuclide Angiocardiography in Evaluation of Patients After Repair of Transposition of the Great Arteries.** Roger A. Hurwitz, Nicholas Papanicolaou, Salvador Treves, John F. Keane and Aldo Castenada
- 766 **Mustard Operation in the 1st Month of Life.** Leonard L. Bailey, John G. Jacobson, William H. Merritt, Robin W. Doroshov and Eugene L. Petry
- 771 **Determination of Left Ventricular Diastolic Chamber Stiffness and Myocardial Stiffness in Patients With Congenital Heart Disease.** George G. S. Sandor and Peter M. Olley with the assistance of Ron Mundy
- 780 **Concealed Left Atrial Membrane: Pitfalls in the Diagnosis of Cor Triatriatum and Supravalvular Mitral Ring.** Mark D. Jacobstein and Stephen S. Hirschfeld
- 787 **Univentricular Heart: An Angiographic Study.** Benigno Soto, Albert D. Pacifico and Germano Di Sciascio

## REPORTS ON HYPERTENSION

- 795 **Reversal of Left Ventricular Hypertrophy in Hypertensive Patients Treated With Methyldopa. Lack of Association With Blood Pressure Control.** Fetnat M. Fouad, Yoshiyuki Nakashima, Robert C. Tarazi and Ernesto E. Salcedo

## REVIEWS

- 802 **The Injury-Spasm (Ischemia-Induced Hemostatic Vasoconstrictive) and Vascular Autoregulatory Hypothesis of Ischemic Heart Disease. Coronary Resistance Vessel-Spasm Hypothesis of Ischemic Heart Disease.** H. Richard Hellstrom

## REPORTS ON THERAPY

- 811 **Enhancement of Left Ventricular Function by Glucose-Insulin-Potassium Infusion in Acute Myocardial Infarction.** Patrick L. Whitlow, William J. Rogers, L. Richard Smith, Huey G. McDaniel, Silvio E. Papapietro, John A. Mantle, Joseph R. Logic, Richard O. Russell, Jr. and Charles E. Rackley
- 821 **Comparison of Metoprolol and Verapamil in the Treatment of Angina Pectoris.** Krister Arnman and Lars Rydén
- 828 **Prevention of Propranolol Withdrawal Mechanism by Prolonged Small Dose Propranolol Schedule.** Robert E. Rangno, Stan Nattel and Alfred Lutterodt
- 834 **The Hyperventilation Test as a Method for Developing Successful Therapy in Prinzmetal's Angina.** Luis A. Girotti, Jorge R. Crosatto, Horacio Messuti, Juan C. Kaski, Eduardo Dyszel, Carlos A. Rivas, Luis I. Araujo, Hector D. Vetulli and Mauricio B. Rosenbaum
- 842 **Large Dose Sublingual Nitroglycerin in Acute Myocardial Infarction: Relief of Chest Pain and Reduction of Q Wave Evolution.** Young I. Kim and John F. Williams, Jr.

## DIAGNOSTIC SHELF

- 849 **Limitations of Pulmonary Wedge V Waves in Diagnosing Mitral Regurgitation.** Richard M. Fuchs, Richard R. Heuser, Frank C. P. Yin and Jeffrey A. Brinker
- 855 **Atrioventricular Alternating Wenckebach Periodicity. Conduction Patterns in Multilevel Block.** Laszlo Littmann and Robert H. Svenson

## CASE REPORTS

- 863 **Origin of the Right Coronary Artery From the Left Sinus of Valsalva and Its Functional Consequences: Analysis of 10 Necropsy Patients.** William C. Roberts, Robert J. Siegel and Douglas P. Zipes
- 869 **Surgical Exclusion of Focal Paroxysmal Atrial Tachycardia.** Kelley P. Anderson, Edward B. Stinson and Jay W. Mason

## EDITORIALS

- 875 **Bayes' Theorem: An Idea Whose Time Has Come?** Henry N. Wagner, Jr.

## SPECIAL DEPARTMENTS

- 879 **Convention Features**
- 890 **American College of Cardiology News**

## PART 2

- 893 **Abstracts**
- 1053 **Indexes to Abstracts**
- 1084 **Letters to the Editor**
- 1089 **Books Received**

## CLINICAL STUDIES

- 1091 Importance of Preoperative Hypertrophy, Wall Stress and End-Systolic Dimension as Echocardiographic Predictors of Normalization of Left Ventricular Dilatation After Valve Replacement in Chronic Aortic Insufficiency. Andrew G. Kumpuris, Miguel A. Quinones, Alan D. Waggoner, Donna J. Kanon, Jean G. Nelson and Richard R. Miller
- 1101 Noninvasive in Vivo and in Vitro Study of the St. Jude Mitral Valve Prosthesis. Evaluation Using Two Dimensional and M Mode Echocardiography, Phonocardiography and Cinefluoroscopy. Howard J. Feldman, Richard J. Gray, Aurelio Chaux, Stephen W. Halpern, Robert Kraus, Howard N. Allen and Jack M. Matloff
- 1110 Value of Early Two Dimensional Echocardiography in Patients With Acute Myocardial Infarction. Robert S. Gibson, Harry L. Bishop, R. Brad Stamm, Richard S. Crampton, George A. Beller and Randolph P. Martin
- 1120 Late Effects of Acute Infarct Dilatation on Heart Size: A Two Dimensional Echocardiographic Study. Jay A. Erlebacher, James L. Weiss, Leland W. Eaton, Clay Kallman, Myron L. Weisfeldt and Bernadine H. Bulkley
- 1127 Can Exercise Electrocadiography and Thallium-201 Myocardial Imaging Exclude the Diagnosis of Coronary Artery Disease? Bayesian Analysis of the Clinical Limits of Exclusion and Indications for Coronary Angiography. Randolph E. Patterson, Steven F. Horowitz, Calvin Eng, Arthur Rudin, Jose Meller, Doris A. Halgash, Augusto D. Pichard, Stanley J. Goldsmith, Michael V. Herman and Richard Gorlin
- 1136 Bedside Evaluation of Atrioventricular Block With Narrow QRS Complexes: Usefulness of Carotid Sinus Massage and Atropine Administration. Lucia M. Mangiardi, Rodolfo Bonamini, Mariarosa Conte, Fiorenzo Gaita, Fulvio Orzan, Patrizia Presbitero and Antonio Brusca
- 1146 Reduced Prostacyclin Production in Patients With Different Manifestations of Ischemic Heart Disease. Gian G. Neri-Serneri, Giulio Masotti, Loredana Poggesi, Giorgio Galanti, Alessandro Moretini and Luca Scarti
- 1152 Response of Plasma Norepinephrine and Epinephrine to Dynamic Exercise in Patients With Congestive Heart Failure. Gary S. Francis, Steven R. Goldsmith, Susan M. Ziesche and Jay N. Cohn

## EXPERIMENTAL STUDIES

- 1157 Tissue Acoustic Properties of Fresh Left Ventricular Thrombi and Visualization by Two Dimensional Echocardiography: Experimental Observations. Frank L. Mikell, Richard W. Asinger, K. Joseph Elspeger, W. Robert Anderson and Morrison Hodges
- 1168 Overdrive Suppression of Atrial Pacemaker Tissues in the Alert, Awake Dog Before and Chronically After Excision of the Sinoatrial Node. Walter C. Randall, Lynn E. Rinkema, Stephen B. Jones, John F. Moran and Gissur Brynjolfsson
- 1176 Method for Evaluating the Effects of Antiarrhythmic Drugs on Ventricular Tachycardias With Different Electrophysiologic Characteristics and Different Mechanisms in the Infarcted Canine Heart. Jesse Davis, Robert Glassman and Andrew L. Wit

- 1185 Left Stellotomy and Denervation Supersensitivity in Conscious Dogs. Peter J. Schwartz and H. Lowell Stone

## METHODS

- 1191 Mitral and Aortic Valve Orifice Area in Normal Subjects and in Patients With Congestive Cardiomyopathy. Determination by Two-Dimensional Echocardiography. Charles Pollick, Marjorie Pittman, Kilty Filly, Peter J. Fitzgerald and Richard L. Popp
- 1197 Noninvasive Assessment of Coronary Stenoses by Myocardial Imaging During Pharmacologic Coronary Vasodilation. VI. Detection of Coronary Artery Disease in Human Beings With Intravenous N-13 Ammonia and Positron Computed Tomography. Heinrich R. Schelbert, Gerald Wisenberg, Michael E. Phelps, K. Lance Gould, Eberhard Henze, Edward J. Hoffman, Antoinette Gomes and David E. Kuhl
- 1208 Anatomically Flexible, Computer-Assisted Reporting System for Coronary Angiography. Edwin L. Alderman, Karen K. Hamilton, James Silverman, Donald C. Harrison and William J. Sanders
- 1216 A New Catheter System for Coronary Angioplasty. John B. Simpson, Donald S. Baim, Edward W. Robert and Donald C. Harrison

## PEDIATRIC CARDIOLOGY

- 1223 The Electrophysiologic Basis and Management of Symptomatic Recurrent Tachycardia in Patients With Ebstein's Anomaly of the Tricuspid Valve. Warren M. Smith, John J. Gallagher, Charles R. Kerr, Will C. Sealy, Jack H. Kasell, D. Woodrow Benson, Jr., Michael J. Reiter, Richard Sterba and Augustus O. Grant
- 1235 Two Dimensional Echocardiographic Detection and Measurement of the Right Pulmonary Artery in Pulmonary Atrial-Ventricular Septal Defect: Angiographic and Surgical Correlation. James C. Huhta, Jeffrey M. Piehler, Abdul J. Tajik, Donald J. Hagler, Douglas D. Mair, Paul R. Julsrud and James B. Seward
- 1241 Radionuclide Evaluation of Right and Left Ventricular Function in Children: Validation of Methodology. Mark D. Parrish, Thomas P. Graham, Jr., Mark L. Born and Jerry Jones
- 1248 Cardiac Catheterization in Infants and Children Can Be an Outpatient Procedure. Gordon R. Cumming
- 1254 Excitation of the Double Chamber Right Ventricle: Electrophysiologic and Anatomic Correlation. Craig J. Byrum, MacDonald Dick II, Douglas M. Behrendt, Paul Hees and Amnon Rosenthal

## REPORTS ON THERAPY

- 1259 Combined Acebutolol/Nifedipine Therapy in Patients With Chronic Coronary Artery Disease: Additional Improvement of Ischemia-Induced Left Ventricular Dysfunction. Matthias Pfisterer, Jan Müller-Brand and Felix Burkart
- 1267 Hemodynamic and Coronary Effects of Intravenous Labetalol in Coronary Artery Disease. Roger-Marie Gagnon, Martin Morissette, Stephen Presant, Daniel Savard and Jean Lemire
- 1270 Electrophysiology of Oral Encainide. Warren M. Jackman, Douglas P. Zipes, Gerald V. Naccarelli, Robert L. Rinkenberger, James J. Heeger and Eric N. Prystowsky

- 1279 **Tocainide for Refractory Symptomatic Ventricular Arrhythmias.** Philip J. Podrid and Bernard Lown

#### CLINICAL UPDATE

- 1287 **Current Applications of Clinical Electrophysiologic Study in the Diagnosis and Treatment of Cardiac Arrhythmias.** Isaac Wiener

#### CASE REPORTS

- 1293 **An Unusual Case of Mitral Valve Aneurysm: Two Dimensional Echocardiographic and Cineangiographic Features.** Basil S. Lewis, Peter R. Colsen, Tiberio Rosenfeld, Joseph K. McKibbin and John B. Barlow
- 1297 **Aprindine-Induced Polymorphous Ventricular Tachycardia.** Daniel Scagliotti, Boris Strasberg, Hamid A. Hai, Richard Kehoe and Kenneth Rosen

- 1301 **Cardiovascular Physiology in a Case of Heterotopic Cardiac Transplantation.** Kenneth R. Melvin, Charles Pollick, Sharon A. Hunt, Ross McDougall, Michael L. Goris, Phillip Oyer, Richard L. Popp and Edward B. Stinson

#### BETHESDA CONFERENCE REPORT

- 1309 **Twelfth Bethesda Conference. Noninvasive Technology in the Assessment of Ventricular Function.** Harold T. Dodge, Chairman and J. Ward Kennedy, Co-Chairman

---

#### SPECIAL DEPARTMENTS

- 1375 **Letters to the Editor**
- 1379 **American College of Cardiology News**

# SYMPOSIUM ON ANGIOTENSIN-CONVERTING ENZYME INHIBITION: A DEVELOPING THERAPEUTIC CONCEPT

ALBERTO ZANCHETTI, MD, and  
ROBERT C. TARAZI, MD, Guest Editors

- 1381 **Thou, Gentle Viper: An Introduction.** Alberto Zanchetti  
1383 **Editorial Note: Renin, the Heart and Hypertension.** Robert C. Tarazi

## HISTORICAL PERSPECTIVE

- 1384 **Angiotensin-Converting Enzyme Inhibition: A Developing Therapeutic Concept. Introduction to Session I: Development.** Franz Gross  
1385 **Historical Perspectives on the Renin-Angiotensin-Aldosterone System and Angiotensin Blockade.** James O. Davis and Ronald H. Freeman  
1390 **Development and Design of Specific Inhibitors of Angiotensin-Converting Enzyme.** David W. Cushman, Hong Son Cheung, Emily F. Sabo and Miguel A. Ondetti

## PATHOPHYSIOLOGIC MECHANISMS

- 1395 **Effect of Infused Captopril on Blood Pressure and the Renin-Angiotensin-Aldosterone System in Normal Dogs Subjected to Varying Sodium Balance.** James J. Morton, Malcolm Tree and Jorge Casals-Stenzel  
1401 **Effect of Angiotensin-Converting Enzyme Inhibition on Circulating and Local Kinin Levels.** Colin I. Johnston, Barbara H. Clappison, Warwick P. Anderson and Minoru Yasujima  
1405 **Angiotensin-Converting Enzyme Inhibition and Prostaglandins.** Stephen L. Swartz and Gordon H. Williams  
1410 **Interaction of Angiotensin-Converting Enzyme Inhibitors With the Function of the Sympathetic Nervous System.** David P. Clough and Michael G. Collis, James Conway, Raymond Hatton and John R. Keddie  
1415 **Modification of Arterial Baroreflexes by Captopril in Essential Hypertension.** Giuseppe Mancina, Gianfranco Parati, Guido Pomidossi, Guido Grassi, Giovanni Bertinieri, Nunzio Buccino, Alberto Ferrari, Luisa Gregorini, Lucia Rupoli and Alberto Zanchetti  
1420 **Angiotensin-Converting Enzyme Inhibition, Catecholamines and Hemodynamics in Essential Hypertension.** Giulio Muesan, Carlo L. Alicandri, Enrico Agabiti-Rosei, Raffaele Fariello, Marina Beschi, Enrico Boni, Maurizio Castellano, Elisabetta Moniti, Lorenza Muesan, Giuseppe Romanelli and Augusto Zanielli  
1425 **Renal Response to Angiotensin-Converting Enzyme Inhibition.** Norman K. Hollenberg  
1430 **Role of Angiotensin II in the Physiologic Regulation of Glomerular Filtration.** Barry M. Brenner, Nestor Schor and Iekuni Ichikawa

## ROUND TABLE DISCUSSION

- 1434 **Is Angiotensin a Prime Factor in Blood Pressure Control? Peter Sleight, Chairman**

## CLINICAL EXPERIENCE IN HYPERTENSION

- 1440 **Long-Term Efficacy of Captopril in Renovascular and Essential Hypertension.** David B. Case, Steven A. Atlas, Rose Marie Marion and John H. Laragh  
1447 **Comparison of the Hormonal and Renal Effects of Captopril in Severe Essential and Renovascular Hypertension.** Jean-Claude Aldigier, Pierre-François Plouin, Tam T. Guyene, Marc Thibonnier, Pierre Corvol and Joël Menard  
1453 **Hemodynamic Effects of Captopril in Essential Hypertension, Renovascular Hypertension and Cardiac Failure: Correlations With Short- and Long-Term Effects on Plasma Renin.** G. J. Wenting, J. H. D. de Bruyn, A. J. Man in 't Veld, A. J. J. Wolitz, F. H. M. Derkx and Maarten A. D. H. Schalekamp  
1460 **Captopril in the Management of Hypertension with Renal Artery Stenosis: Its Long-Term Effect as a Predictor of Surgical Outcome.** A. Brew Atkinson, Jehoiada J. Brown, Alison M. M. Cumming, Robert Fraser, Anthony F. Lever, Brenda J. Leckie, James J. Morton, J. Ian S. Robertson and D. L. Davies  
1467 **Acute and Chronic Effects of the Angiotensin-Converting Enzyme Inhibitor Captopril in Severe Hypertension.** Jiri Havelka, Hans Vetter, Alfred Studer, Peter Greminger, Thomas Lüscher, Sabine Wollnik, Walter Siegenthaler and Wilhelm Vetter  
1475 **Clinical Experience With Captopril in the Treatment of Severe Drug-Resistant Hypertension.** Anthony E. G. Raine and John G. G. Ledingham

## CONGESTIVE HEART FAILURE

- 1480 **Angiotensin-Converting Enzyme Inhibition in Congestive Heart Failure: The Concept.** Jay N. Cohn and T. Barry Levine  
1484 **Hemodynamic Effects of Captopril in Patients with Severe Chronic Heart Failure.** Thierry H. LeJemtel, Edmund Keung, William H. Frishman, Hillel S. Ribner and Edmund H. Sonnenblick  
1489 **Long-Term Control of Congestive Heart Failure With Captopril.** Felnat M. Fouad, Robert C. Tarazi, Emmanuel L. Bravo, Neil J. Hart, Lon W. Castle and Ernesto E. Salcedo  
1497 **Hemodynamic and Hormonal Responses During Captopril Therapy for Heart Failure: Acute, Chronic and Withdrawal Studies.** M. Gary Nicholls, Hamid Ikram, Eric A. Espiner, Andrew H. Maslowski, Malcolm S. Scandrett and Teresa Penman

## SHORT COMMUNICATIONS: PATHOPHYSIOLOGIC MECHANISMS

- 1502 **In Vivo Comparison of Three Orally Active Inhibitors of Angiotensin-Converting Enzyme.** Yutaka Takata, Robert DiNicolaantonio, Jeffrey S. Hutchinson, Frederick A. O. Mendelsohn and Austin E. Doyle  
1505 **Long-Term Effects of Captopril on Passive Sodium Permeability and Contractility in Vascular Smooth Muscles of Spontaneously Hypertensive Rats.** Hiroyuki Koike, Masaaki Miyamoto and Katsuki Ito  
1508 **Induction of Angiotensin I-Converting Enzyme in Rat Lung With Captopril: The Effect of Adrenalectomy.** Frej Fyhrquist, Andrew Grönhagen-Riska, Terje Forslund and Ilkka Tikkanen

- 1511 **Direct Renal Action of Captopril (SQ 14225): Dissociation of Natriuretic and Vascular Actions in Isolated Perfused Rat Kidney.** Tohru Oghara, Toshiyuki Yasui, Haruyuki Nakane, Yoko Nakane and Takao Saruta
- 1513 **Changes of the Intralymphocytic Sodium Concentration After Acute and Chronic Captopril Administration.** Anna Santucci, Francesco Aguglia, Francesco Violi and Giancarlo De Mattia
- 1515 **Angiotensin II is a Necessary Component for the Development of Hypertension in the Two Kidney, One Clip Rat.** Jack M. DeForrest, Richard C. Knappenberger, Michael J. Antonaccio, Ronald A. Ferrone and Jay S. Creekmore
- 1518 **Decreased Uterine Bradykinin Receptors During Captopril Infusion in Rats.** Minoru Yasujima, Geoffrey Matthews and Colin I. Johnston
- 1521 **Renal Prostaglandin E<sub>2</sub> Biosynthesis: Dependence on Angiotensin II.** Ahmad A. Attallah, Rolf A. K. Stahl, Dean L. Bloch, Julian L. Ambrus and James B. Lee
- 1524 **Effects of Captopril on Prostaglandin E<sub>2</sub> and Natriuresis in Patients With Essential Hypertension.** Antonin Hornych, Michel Safar, Alain Simon, Jaime Levenson, Jean Bariety and Paul Milliez
- 1527 **Mechanism of the Blood Pressure and Renal Hemodynamic Effects of Captopril.** John E. Hall and Joey P. Granger
- 1530 **Dissociation Between In Vivo and In Vitro Measurements of Converting Enzyme Activity After Chronic Oral Treatment With Captopril in Rats.** Thomas Unger, Dorsay Hübner, Bernd Schüll, Tokihito Yukimura, Wolfgang Rascher, Rudolf E. Lang and Detlev Ganten
- 1533 **Comparative Effects of Captopril and MK 421 on Sympathetic Function in Spontaneously Hypertensive Rats.** Michael J. Antonaccio and Martha McGill
- 1535 **Effects of Angiotensin-Converting Enzyme Inhibitors on the Vascular Response to Norepinephrine.** Takao Saruta, Hiromichi Suzuki, Tetsuji Okuno and Kazuoki Kondo
- 1537 **Captopril Attenuates Pressor Responses to Norepinephrine and Vasopressin Through Depletion of Endogenous Angiotensin II.** Yutaka Imai, Keishi Abe, Masahide Sano, Toshiaki Haruyama, Jiro Tajima, Kaoru Yoshinaga and Hiroshi Sekino
- 1540 **Evidence for a Postsynaptic Effect of Captopril in Isolated Perfused Rabbit Kidney.** Albert Mimran, Daniel Casellas, Claude Chevillard, Madeleine Dupont and Bernard Jover
- 1542 **Role of Sympathetic Nervous System Activity in the Blood Pressure Response to Long-Term Captopril Therapy in Severely Hypertensive Patients.** Myron H. Weinberger
- 1544 **Effects of Meclofenamate and Captopril on Adrenal Blood Flow: Contrasts in Conscious Rabbits at Rest and After Hemorrhage.** Richard A. Banks, Lawrence J. Bellin, Jan Soltys and Lisa Davidson

# SHORT COMMUNICATIONS: CLINICAL EXPERIENCE IN HYPERTENSION

- 1547 **Pharmacokinetic Properties of Captopril After Acute and Chronic Administration to Hypertensive Subjects.** Bevy Jarrott, Olaf Drummer, Rita Hooper, Adrienne I. E. Anderson, Peter J. Misch and William J. Louis
- 1550 **Comparison in Normal Volunteers of Three Converting Enzyme Inhibitors: RHC 3659, MK 421 and Captopril.** Michel Burnier, Jerome Biollaz, Hans R. Brunner, Gustav A. Turini and Haralambos Gavras
- 1552 **Active and Inactive Renin After a Single Low Dose of Captopril in Hypertensive Patients.** Nicola Glorioso, Paolo Dessi-Fulgheri, Paolo Madeddu, Giuseppe Fois, Mario Palermo, Francesco Cocco, Simonetta Dettori and Alessandro Rappelli
- 1555 **Captopril in the Long-Term Treatment of Essential Hypertension: Changes in the Renin-Angiotensin-Aldosterone System.** Günter A. J. Riegger, Hansgeorg Steinhilber, Karl Hayduk and Gerhard Liebau
- 1558 **Antihypertensive Effects of Captopril and Saralasin in Essential and Renal Hypertension.** Arno Konrads, Karl A. Meurer, Wolfgang Hummerich, Gerhard Wambach, Jochen Kindler, Heinrich Feltkamp and Albert Helber
- 1561 **Increase in Plasma Adosterone During Prolonged Captopril Treatment.** Paul Lijnen, Jan Staessen, Robert Fagard and Antoon Amery
- 1564 **Acute Hypotensive and Renin-Stimulating Actions of Captopril Before and During Treatment With a Beta-Blocking Drug.** Gastone Leonetti, Carlo Blachini, Laura Terzoli, Roberto Gradnik, Maurizio Tusa, Enrica Bramati and Alberto Zanchetti
- 1566 **Comparison of Antihypertensive and Hormonal Effects of Captopril and Propranolol at Rest and During Exercise.** Thomas G. Pickering, David B. Case, Patricia A. Sullivan and John H. Laragh
- 1569 **Hemodynamic Response to Captopril at Rest and During Exercise in Hypertensive Patients.** Robert Fagard, Paul Lijnen and Antoon Amery
- 1572 **Effects of Captopril on Renal Function in Hypertensive Patients.** Achille C. Pessina, Andrea Semplicini, Gianpaolo Rossi, Angelo Gatta, Paolo Palatini, Roberto Gava, Edoardo Casiglia and Cesare Dal Palù
- 1574 **Humoral and Hemodynamic Effects of Increasing Doses of Captopril in Patients With Essential Hypertension.** Paolo Sassano, Roberto Pedrinelli, Armando Magagna, Basem Abdel-Haq and Antonio Salvetti
- 1577 **Effect of Captopril on Renal Function in Patients With Essential Hypertension.** Roberto Palla, Maria E. Marchitello, Paolo Sassano and Antonio Salvetti

## CLINICAL STUDIES—I

- 1581 Long-Term Prognosis in Patients With Bundle Branch Block Complicating Acute Anteroseptal Infarction. Richard N. W. Hauer, K. I. Lie, Koen L. Liem and Dirk Durrer
- 1586 Clinical Implications of Increased Lung Uptake of Thallium-201 During Exercise Scintigraphy 2 Weeks After Myocardial Infarction. Robert S. Gibson, Denny D. Watson, Blase A. Caraballo, Nina D. Holt and George A. Beller
- 1594 Comparison of Right Atrial Pacing Soon After Myocardial Infarction With Treadmill Testing 6 Months Later. Dan Tzivoni, Jesaja Benhorin, Andre Keren, Shmuel Gottlieb and Shlomo Stern
- 1600 Myocardial Infarction Before Age 36: Risk Factor and Arteriographic Analysis. Matthew U. Glover, Matthew T. Kuber, Sanford E. Warren and Walter V. R. Vieweg
- 1604 Evaluation of a QRS Scoring System for Estimating Myocardial Infarct Size. II. Correlation With Quantitative Anatomic Findings for Anterior Infarcts. Raymond E. Ideker, Galen S. Wagner, Wayne K. Ruth, Daniel R. Alonso, Sanford P. Bishop, Colin M. Bloor, John T. Fallon, Geoffrey J. Gottlieb, Donald B. Hackel, Harry R. Phillips, Keith A. Reimer, Steven F. Roark, William J. Rogers, Robert M. Savage, Richard D. White and Ronald H. Selvester

## CLINICAL STUDIES—II

- 1615 Coronary Hemodynamics During Percutaneous Transluminal Coronary Angioplasty. Martin T. Rothman, Donald S. Baim, John B. Simpson and Donald C. Harrison
- 1623 Early and Late Results of Combined Endarterectomy and Coronary Bypass Grafting for Diffuse Coronary Disease. Murtada A. Halim, Shakeel A. Qureshi, Malcolm K. Towers and Magdi H. Yacoub
- 1627 Decrease in Systolic Blood Pressure During Exercise Testing: Reproducibility, Response to Coronary Bypass Surgery, and Prognostic Significance. Donald A. Weiner, Carolyn H. McCabe, Sally S. Cutler and Thomas J. Ryan
- 1632 Exercise Thallium-201 Myocardial Scintigraphy in Women: Correlation With Coronary Arteriography. Terry D. Friedman, Andrew C. Greene, Abdulmassih S. Iskandrian, A-Hamid Hakki, Sally A. Kane and Bernard L. Segal
- 1638 Prevalence and Magnitude of S-T Segment and T Wave Abnormalities in Normal Men During Continuous Ambulatory Electrocardiography. William F. Armstrong, John W. Jordan, Stephen N. Morris and Paul L. McHenry

## CLINICAL STUDIES—III

- 1643 Multiformity of Induced Unifocal Ventricular Premature Beats in Human Subjects: Electrocardiographic and Angiographic Correlations. David C. Booth, Kenneth A. Popio and Leonard S. Gettes
- 1654 Q-T Prolongation and Polymorphous ("Torsade de Pointes") Ventricular Arrhythmias Associated With Organophosphorus Insecticide Poisoning. Achiyahu Ludomirsky, Herman O. Klein, Pinchas Sarelli, Bruno Becker, Seymour Hoffman, Uri Taitelman, Jacob Barzilai, Roberto Lang, Daniel David, Elio DiSegni and Elieser Kaplinsky

- 1659 Activity of the Sympathetic Nervous System and Renin-Angiotensin System Assessed by Plasma Hormone Levels and Their Relation to Hemodynamic Abnormalities in Congestive Heart Failure. T. Barry Levine, Gary S. Francis, Steven R. Goldsmith, Ada B. Simon and Jay N. Cohn
- 1667 The Contributions of Sympathetic Tone and the Renin-Angiotensin System to Severe Chronic Congestive Heart Failure: Response to Specific Inhibitors (Prazosin and Captopril). Jeffrey Kluger, Robert J. Cody and John H. Laragh

## EXPERIMENTAL STUDIES

- 1675 Prevention of Calcium Paradox-Related Myocardial Cell Injury With Diltiazem, a Calcium Channel Blocking Agent. Mohammed Ashraf, Masahiko Onda, John B. Benedict and Ronald W. Millard
- 1682 Increased Dopamine in the Failing Hamster Heart: Transvesicular Transport of Dopamine Limits the Rate of Norepinephrine Synthesis. Michael J. Sole, Cinda J. Helke and David M. Jacobowitz
- 1691 "Redistribution" of Myocardial Thallium-201 Without Reperfusion: Implications Regarding Absolute Quantification of Perfusion. Steven R. Bergmann, Stanley N. Hack and Burton E. Sobel
- 1699 Comparison of Three Methods of Evaluating Coronary Obstructive Lesions: Postmortem Arteriography, Pathologic Examination and Measurement of Regional Myocardial Perfusion During Maximal Vasodilation. Melvin L. Marcus, Mark L. Armstrong, Donald D. Heistad, Charles L. Eastham and Allyn L. Mark

## METHODS

- 1707 Percutaneous Wire-Guided Balloon Pumping. Robert C. Leinbach, Jonathan Goldstein, Herman K. Gold, Jeffrey W. Moses, Michael B. Collins and Valavanur Subramanian
- 1711 Noninvasive Measurement of Human Right Intraventricular Blood Velocity by an Ultrasonic Technique. Robert M. Olson, Edward L. Fitzpatrick and Ewald Koegele

## REPORTS ON THERAPY

- 1719 The Significance of Nitroglycerin-Induced Changes in Ventricular Function After Acute Myocardial Infarction. Richard F. Dunn, Elias H. Botvinick, William Bengt, Kanu Chatterjee and William W. Parmley
- 1728 Afterload Reduction With Nifedipine in Aortic Insufficiency. Paolo Fioretti, Bernardo Benussi, Sabino Scardi, Silvio Klugmann, Ronald W. Brower and Fulvio Camerini

## PEDIATRIC CARDIOLOGY—I

- 1733 Clinical and Hemodynamic Results of the Fontan Operation for Tricuspid Atresia. Stephen P. Sanders, Gregory B. Wright, John F. Keane, William I. Norwood and Aldo R. Castaneda
- 1741 Late Results After Extracardiac Conduit Repair for Congenital Cardiac Defects. Dwight C. McGoon, Gordon K. Danielson, Francisco J. Puga, Donald G. Ritter, Douglas D. Mair and Duane M. Ilstrup
- 1750 Long-Term Endocardial Atrial Pacing in Children With Postoperative Bradycardia-Tachycardia Syndrome and Limited

**Ventricular Access.** Michael D. McGoon, James D. Maloney, Dwight C. McGoon and Gordon K. Danielson

- 1755 **Fate of Coronary Aneurysms in Kawasaki Disease: Serial Coronary Angiography and Long-Term Follow-Up Study.** Hirohisa Kato, Eisei Ichinose, Fumio Yoshioka, Tetsuhisa Takechi, Shingi Matsunaga, Kazushige Suzuki and Noriko Rikitake

#### **PEDIATRIC CARDIOLOGY—II**

- 1767 **Congenital Stenosis of Individual Pulmonary Veins: Clinical Spectrum and Unsuccessful Treatment by Transvenous Balloon Dilation.** David J. Driscoll, Peter S. Hesslein and Charles E. Mullins
- 1773 **Echocardiographic Pulsed Doppler Features of Absent Pulmonary Valve Syndrome in the Neonate.** John P. Cheatham, Larry A. Latson and Howard P. Gutgesell
- 1778 **Mechanisms of Regular, Wide QRS Tachycardia in Infants and Children.** D. Woodrow Benson, Jr., Warren M. Smith, Ann Dunnigan, Richard Sterba and John J. Gallagher

#### **DIAGNOSTIC SHELF**

- 1789 **Real Time Two Dimensional Echocardiography in Constrictive Pericarditis.** Basil S. Lewis
- 1794 **Valve Ring Abscess in Infective Endocarditis: Visualization With Wide Angle Two Dimensional Echocardiography.** James G. Scanlan, James B. Seward and Abdul J. Tajik

- 1801 **Pulsed Doppler Echocardiography in Diagnosis of Pulmonary Regurgitation: Its Value and Limitations.** Ashvin K. Patel, George C. Rowe, Shiraz P. Dhanani, Peter Kosolcharoen, Lou Ellen W. Lyle and James H. Thomsen

- 1806 **Positive Contrast Echocardiography in Patients With Patent Foramen Ovale and Normal Right Heart Hemodynamics.** Gerhard Kronik and Herbert Mösslacher

#### **CASE REPORTS**

- 1811 **Noninvasive Diagnosis of Left Coronary Arteriovenous Fistula Communicating With the Right Ventricle.** Itzhak Kronzon, Howard E. Winer and Murray Cohen
- 1814 **Reentry Confined to the Atrioventricular Node: Electrophysiologic and Anatomic Findings.** Melvin M. Sheinman, Rolando Gonzalez, Arthur Thomas, Daniel Ulyot, Saroja Bharati and Maurice Lev

---

#### **SPECIAL DEPARTMENTS**

- 1819 **American College of Cardiology**
- 1822 **Books Received**

## CLINICAL STUDIES

- 1823 **Prognosis of Asymptomatic or Mildly Symptomatic Patients With Coronary Artery Disease.** Kenneth M. Kent, Douglas R. Rosing, Carolyn J. Ewels, Lewis Lipson, Robert Bonow and Stephen E. Epstein
- 1832 **Clinical Assessment and Follow-Up of Functional Capacity in Patients With Chronic Congestive Cardiomyopathy.** Robert Engler, Richard Ray, Charles B. Higgins, Catherine McNally, Wendy Hansen Buxton, Valmik Bhargava and Ralph Shabetai
- 1838 **Hypertrophic Cardiomyopathy With Ventricular Septal Hypertrophy Localized to the Apical Region of the Left Ventricle (Apical Hypertrophic Cardiomyopathy).** Barry J. Maron, Robert O. Bonow, Tippi N. R. Seshagiri, William C. Roberts and Stephen E. Epstein
- 1849 **The Spectrum of Unstable Angina: Prognostic Role of Serum Creatine Kinase Determination.** Paul W. Armstrong, Miguel A. Chiong and John O. Parker
- 1853 **Natural History of Tricuspid Valve Endocarditis: A Two Dimensional Echocardiographic Study.** Leonard E. Ginzton, Robert J. Siegel and J. Michael Criley
- 1860 **Effect of Increasing Heart Rate in Patients With Aortic Regurgitation. Effect of Incremental Atrial Pacing on Scintigraphic, Hemodynamic and Thermolabel Measurements.** Brian G. Firth, Gregory J. Dehmer, Pascal Nicod, James T. Willerson and L. David Hillis
- 1868 **Normal Left Ventricular Systolic Function in Adults With Atrial Septal Defect and Left Heart Failure.** Blase A. Carabello, Arnold Gash, Douglas Mayers and James F. Spann
- 1874 **Mechanism of a Musical Systolic Murmur Caused by a Degenerated Porcine Bioprosthetic Valve.** Paul D. Stein, Hani N. Sabbah, Donald J. Magilligan, Jr. and Jeffrey B. Lakier

## EXPERIMENTAL STUDIES

- 1883 **Timing of Pulmonary and Systemic Blood Flow During Intermittent High Intrathoracic Pressure Cardiopulmonary Resuscitation in the Dog.** James M. Cohen, Nisha Chandra, Philip O. Alderson, Andries Van Aswegen, Joshua E. Tsitlik and Myron L. Weisfeldt
- 1890 **Echocardiographic Evidence for Early Left Ventricular Hypertrophy in Dogs With Renal Hypertension.** Shigetomi Morioka and Geza Simon
- 1896 **Effects of Left Atrial Enlargement on Atrial Transmembrane Potentials and Structure in Dogs With Mitral Valve Fibrosis.** Penelope A. Boyden, Lawrence P. Tilley, Tuan Duc Pham, Si-Kwang Liu, John J. Fenoglio, Jr. and Andrew L. Wit
- 1909 **Fast and Slow Idioventricular Rhythms in the Canine Heart: A Study of Their Mechanism Using Antiarrhythmic Drugs and Electrophysiologic Testing.** Joseph P. Ilvento, John Provot, Peter Danilo, Jr. and Michael R. Rosen

## METHODS

- 1917 **Discriminant Function Analysis Using Thallium-201 Scintiscans and Exercise Stress Test Variables to Predict the Presence and Extent of Coronary Artery Disease.** David M. McCarthy, Robert R. Sciacca, David K. Blood and Paul J. Cannon

- 1927 **Diagnostic Accuracy of Cardiologists Compared With Probability Calculations Using Bayes' Rule.** Mark Hlatky, Elias Botvinick and Bruce Brundage
- 1932 **Prevalence of Late Potentials in Patients With and Without Ventricular Tachycardia: Correlation With Angiographic Findings.** Gunter Breithardt, Martin Borggrefe, Ulrich Karbenn, Rolf-Rüdiger Abendroth, Hsiao-Lin Yeh and Ludger Seipel
- 1938 **Effect of Ventricular Hypertrophy on Conduction Velocity of Activation Front in the Ventricular Myocardium.** Hideaki Toyoshima, Yung-Dee Park, Yuichi Ishikawa, Seiki Nagata, Yukio Hirata, Hiroshi Sakakibara, Katsuro Shimomura and Ryu Nakayama
- 1946 **Estimation of Right Ventricular Volume With Two Dimensional Echocardiography.** Tomi Watanabe, Hiroshi Katsume, Haruo Matsukubo, Keizo Furukawa and Hamao Ijichi
- 1954 **Long-Term Intravenous Infusion of Antiarrhythmic Drugs Using a Totally Implanted Drug Delivery System.** Jeffrey L. Anderson, Elton M. Tucker, Stanislaw Pasyk, Eugene Patterson, Arthur B. Simon, William E. Burmeister, Benedict R. Lucchesi and Bertram Pitt with the technical assistance of Richard P. Donahue and Marilyn E. Conlon

## PEDIATRIC CARDIOLOGY

- 1959 **Straddling Mitral and Tricuspid Valves: Morphologic Differences and Developmental Backgrounds.** Arnold C. G. Wenink and Adriana C. Gittenberger-de Groot
- 1972 **Congenital Mitral Valve Anomalies in Transposition of the Great Arteries.** Rudolf J. Moene and Arentje Oppenheimer-Dekker
- 1979 **Aortic Regurgitation in Tetrad of Fallot and Pulmonary Atresia.** Horacio Capelli, Donald Ross and Jane Somerville
- 1984 **False Diagnosis of Subpulmonary Obstruction by Echocardiography in d-Transposition of the Great Arteries.** Gregory L. Johnson, Carol M. Cottrill and Jacqueline A. Noonan
- 1990 **Echocardiographic Measures in 6 to 7 Year Old Children After an 8 Month Exercise Program.** David L. Geenen, Thomas B. Gilliam, Dennis Crowley, Cathie Moorehead-Steffens and Amnon Rosenthal
- 1996 **Segmental Study of the Terminal Coronary Vessels in Coarctation of the Aorta: A Natural Model for Study of the Effect of Coronary Hypertension on Human Coronary Circulation.** Adam Schneeweiss, Libi Sherf, Eva Lehrer, Yair Lieberman and Henry N. Neufeld

## COOPERATIVE STUDIES

- 2003 **Total Occlusion of the Left Main Coronary Artery: The Coronary Artery Surgery Study (CASS) Experience.** Samuel H. Zimmern, William J. Rogers, Peter R. Bream, Bernard R. Chaitman, Martial G. Bourassa, Kathryn A. Davis, Denis H. Tyras, Robert Berger, Lloyd Fisher, Melvin P. Judkins, Michael B. Mock and Thomas A. Killip
- 2011 **Percutaneous Transluminal Coronary Angioplasty: Report From the Registry of the National Heart, Lung, and Blood Institute.** Kenneth M. Kent, Lamberto G. Bentivoglio, Peter C. Block, Michael J. Cowley, Gerald Dorros, Arthur J. Gosselin, Andreas Grunzig, Richard K. Myler, John Simpson, Simon H. Sirtzer, David O. Williams, Lloyd Fisher, Mary J. Gillespie,

Katherine Detre, Sheryl Kelsey, Suzanne M. Mullin and Michael B. Mock

**REVIEWS**

- 2021 Polymorphous Ventricular Tachycardia Associated With Normal and Long Q-T Intervals.** Joseph Soffer, Leonard S. Dreifus and Eric L. Michelson
- 2030 Negative U Wave: A Highly Specific But Poorly Understood Sign of Heart Disease.** Hiroshi Kishida, James S. Cole and Borys Surawicz

**CASE REPORTS**

- 2037 Permanent Atrial Standstill: The Clinical Spectrum.** James Wooliscroft and Naip Tuna

**SPECIAL DEPARTMENTS**

- 2042 Instructions for Authors**
- 2043 Letters to the Editor**
- 2045 Author Index**
- 2048 Subject Index**

# SUBJECT INDEX: ABSTRACTS

## Acetylcholinesterase

- Mechanisms of impulse initiation in the atrioventricular junction and the effects of acetylcholinesterase, 921

## Adenosine triphosphatase

- Red cell ATP-ASE activities in hypertensive patients on long term diuretic therapy, 912
- Sodium and potassium fluxes in erythrocytes—a possible genetic marker for essential hypertension, 911

## Adrenocorticotrophic hormone

- Canine left atrial tissue specifically binds adrenocorticotrophic hormone, 1037

## Adriamycin

- Acute effects of adriamycin on contraction of cultured heart cells, 993
- Digitoxin blockade of adriamycin cardiotoxicity in the rabbit, 985

## Aequorin

- Intracellular calcium transients in human working myocardium as detected with aequorin, 1049

## Age

- Effect of age on the components of atrioventricular conduction in normal man, 1031

## Aldosterone

- Blood pressure, catecholamines, renin and aldosterone during short and long-term treatment of essential hypertension with verapamil, 912

## Alinidine

- Alinidine, a new drug for treatment of sinus tachycardia in myocardial infarction or cardiogenic shock, 980

## Alkaptonuria

- Gross, histologic, and ultrastructural features of cardiac involvement in alkaptonuria, 922

## Alpha adrenoceptors

- Alpha-adrenergic blockade does not prevent spontaneous platelet-mediated thrombosis in stenosed coronary arteries, 976
- Altered platelet alpha<sub>2</sub> adrenoceptors in congestive heart failure, 993
- Do alpha adrenergic receptors have a regulatory role influencing coronary collateral function? 966
- Prevention of reperfusion dysrhythmias by selective coronary alpha adrenergic blockade, 1047

## Amiloidosis

- The reliability of two-dimensional echocardiography in the prospective diagnosis of amyloid heart disease, 1028

## Amiodarone

- A comparison of the electrophysiological effects of intravenous and oral amiodarone, 1044
- Acute effects of intravenous amiodarone in patients with complex ventricular dysrhythmias, 1001
- Amiodarone-digoxin interaction during treatment of resistant cardiac arrhythmias, 1026
- Amiodarone: possibly an ideal antiarrhythmic agent, 981
- Chronic electrophysiologic, systemic and pharmacologic effects of amiodarone in recurrent ventricular tachycardia, 1044
- Effectiveness of amiodarone for refractory atrial tachyarrhythmia, 981

## Electrophysiological effects of intravenous amiodarone, 1044

- Intravenous amiodarone: an effective anti-arrhythmic agent, 1001
- The immediate electrophysiologic effects of amiodarone on the canine sinus node and AV junctional region, 981

## Amrinone

- Comparison of amrinone and pirbuterol in chronic heart failure: additive effect of isosorbide dinitrate, 1039
- Developmental changes in the effects of amrinone on cardiac contraction, 993

## Aneurysms

- Detection of left ventricular mural thrombus: comparative value of invasive and noninvasive techniques, 936
- Diagnosis and classification of fossa ovalis aneurysms by two-dimensional echocardiography: report of 20 cases, 1041
- Prediction of improvement in left ventricular function following ventricular aneurysmectomy using Fourier phase and amplitude analysis of radionuclide scans, 1045

## Angina pectoris

- Antianginal efficacy of perhexiline maleate in patients unresponsive to  $\beta$  adrenoceptor blockade, 930
- A prospective randomized study of propranolol versus diltiazem in patients with unstable angina, 896
- Beneficial effects of high dose diltiazem on exercise left ventricular performance in patients with angina pectoris due to fixed coronary artery disease, 895
- Chest pain and EKG changes in vasotonic angina: a technical critique of discordance, 954
- Comparative and combined quantitative effects of nitroglycerin, propranolol and exercise training on exertional capacity in patients with angina, 1000
- Comparative sensitivity of exercise, cold pressor and ergonovine testing in provoking attacks of variant angina in patients with active disease, 954
- Coronary hemodynamics in patients with angina pectoris and normal coronary arteries, 972
- Different pattern of contractility and perfusion in resting angina with ST segment elevation and depression, 1016

Positive ergometrine test without ECG changes, 954

Pressure-controlled intermittent coronary sinus occlusion reduces myocardial necrosis, 1017

Protective effects of sulfinpyrazone in acute myocardial ischemia and reperfusion, 1038

Reversal of ischemia-induced mitochondrial dysfunction after coronary reperfusion, 1014

Role of myocardial 5'-nucleotidase in the control of adenosine catabolism following ischemia, 1014

R wave amplitude increase during experimental myocardial ischemia: a predictor for malignant ventricular

arrhythmias, 944

Value of radionuclide techniques in the assessment of ischemia in patients with previous myocardial infarction, 1016

# **Isosorbide dinitrate**

Comparison of amrinone and pirbuterol in chronic heart failure: additive effect of isosorbide dinitrate, 1039

# **Isovolumic index**

The isovolumic index: a practical new noninvasive approach to the assessment of left ventricular function in man, 906

# **Kawasaki disease**

Two dimensional echocardiography a necessity in the evaluation and follow-up of Kawasaki disease, 1027

# **Ketanserin**

Ketanserin—a selective serotonergic blocking agent in vascular smooth muscle, 940

# **Krypton 81 m**

Continuous myocardial bloodflow distribution imaging in man with krypton 81 m intracoronary, 979

# **Labetalol**

Effects of beta-adrenergic blockade on plasma lipids: a double-blind randomized placebo-controlled multi-center comparison of labetalol and metoprolol in patients with hypertension, 984

Systemic, pulmonary and coronary hemodynamic effects of acute I.V. and prolonged oral labetalol therapy in hypertensive patients, 997

# **Laser beam**

The effect of laser radiation on atheromatous plaques: a preliminary report, 1008

# **Lidocaine**

Different local anesthetic characteristics of charged and uncharged forms of lidocaine and other antiarrhythmic drugs in canine cardiac Purkinje fibers, 1044

Relative efficacy of propafenone and lidocaine in the treatment of ventricular arrhythmias during acute myocardial infarction in the conscious dog, 1037

The effect of cimetidine administration on serum lidocaine levels in man, 1026

# **Lidoflazine**

Lidoflazine and propranolol in stable angina pectoris: long-term safety and efficacy of combined calcium entry blocker- $\beta$ -adrenergic blocker therapy, 930

# **Lipids**

Correlation of mild glucose intolerance with raised serum lipid concentrations during antihypertensive drug therapy, 924

Effects of beta-adrenergic blockade on plasma lipids: a double-blind randomized placebo-controlled multi-center comparison of labetalol and metoprolol in patients with hypertension, 984

Platelet inhibition reduces lipid accumulation in vein grafts of

hyperlipemic primates, 953

The effects of exercise training on the plasma lipids and lipoproteins following myocardial infarction, 984

Type III hyperlipoproteinemia: a quantitative study demonstrating severe diffuse coronary artery narrowing by atherosclerotic plaques including frequent severe narrowing of the left main, 995

# **Lipoproteins**

Lipoproteins, apolipoproteins and coronary artery disease assessed by coronary arteriography, 984

# **Lysophosphatides**

Inhibition of myocardial catabolism of lysophosphatides with potential augmentation of their accumulation by long-chain acyl carnitine, 1013  
Pathophysiological concentrations of lysophosphatides quantified by electron microscopic autoradiography, 970

# **Manganese-52m**

Manganese-52m: a new myocardial perfusion imaging agent for positron emission tomography that does not require an on-site cyclotron, 979

# **Mapping, endocardial**

Endocardial mapping during sinus rhythm in patients with recurrent sustained life-threatening ventricular arrhythmias, 935

Induction of ventricular arrhythmias with alternating current during intra-operative endocardial mapping, 1012

# **Marfan's syndrome**

Progressive mitral valve dysfunction in the Marfan syndrome, 900

# **Mesenteric arteries**

Contractile actions of racemic and d-propranolol on isolated canine mesenteric and coronary arteries, 940

# **Metabolism**

Beneficial effects of nifedipine on cardiac metabolism and function after cardioplegic arrest. A phosphorus-31 nuclear magnetic resonance study, 1023

Identification of a novel and specific myocardial metabolite of ethanol in vivo, 1029

Impaired recovery of myocardial metabolism detected by positron tomography despite restoration of flow by coronary thrombolysis, 1047

Inhibition of myocardial catabolism of lysophosphatides with potential augmentation of their accumulation by long-chain acyl carnitine, 1013

L-carnitine transport in intact hearts, 1013

Role of myocardial 5'-nucleotidase in the control of adenosine catabolism following ischemia, 1014

Serum lipids and carbohydrate metabolism and cardiovascular risk in children age 6-18 years from a total biracial population, 983

Thromboxane and prostacyclin in systemic and coronary vascular beds following endoperoxide analog infusion, 1014

# **Methylprednisolone**

Ineffectiveness of methylprednisolone to limit the ischemic damage in patients

- with acute myocardial infarction, 1005
- Metoprolol**
- Comparative effects of nitroglycerin (NTG), nifedipine (NIF) and metoprolol (MET) on normal, ischemic and scar myocardial segments in man, 942
  - Effects of beta-adrenergic blockade on plasma lipids: a double-blind randomized placebo-controlled multi-center comparison of labetalol and metoprolol in patients with hypertension, 984
  - Limitation of infarct size in acute myocardial infarction with metoprolol, 1004
- Mexiletine**
- Failure of mexiletine in drug-refractory paroxysmal, sustained ventricular tachycardia, 1002
- Microspheres**
- Assessment of myocardial perfusion using a newly developed technetium diars complex: comparison to 201 thallium and radioactive microspheres, 979
- Mitochondria**
- Elevated plasma mitochondrial creatine kinase: an in vivo marker of irreversible injury, 1038
  - Reversal of ischemia-induced mitochondrial dysfunction after coronary reperfusion, 1014
- Mitral regurgitation**
- Detection of mitral and aortic regurgitation by transesophageal pulsed Doppler echocardiography, 959
- Mitral stenosis**
- Left ventricular filling and contractility in mitral stenosis, 990
  - Normal left ventricular systolic muscle function in mitral stenosis, 990
